Summary

Final year Computer Science student who enjoys turning raw data into clear reports and dashboards.

Education

B.Tech in Computer Science and Engineering, Sample Institute of Technology, 2022 - 2026

Skills

Languages: Python, SQL

Tools: Excel, Power BI, Tableau, Jupyter

Libraries: Pandas, NumPy, Matplotlib

Concepts: Statistics, data visualization

Projects

Sales Dashboard

- Cleaned a large sales dataset with Pandas and wrote SQL queries in MySQL to summarise revenue by region
- Built an interactive Power BI dashboard used by a college club to track monthly performance

Student Survey Analysis

- Used statistics such as correlation and hypothesis testing to analyse survey results
- Presented the findings with Matplotlib charts and an Excel summary sheet
